

Research management in Europe: An overview of current initiatives, projects and developments in the EU context

Nik Claesen, EARMA Managing Director
Coordinator of RM Roadmap and RM Framework

ZWM Lunch Talks, 23 February 2026

About EARMA

**10.000
Research
Managers and
Administrators**

**350 member
organisations
in 40 countries**

**Co-Creating a
European
Research
Management
Profession and
Academy**

**4000+ event
participants
annually**

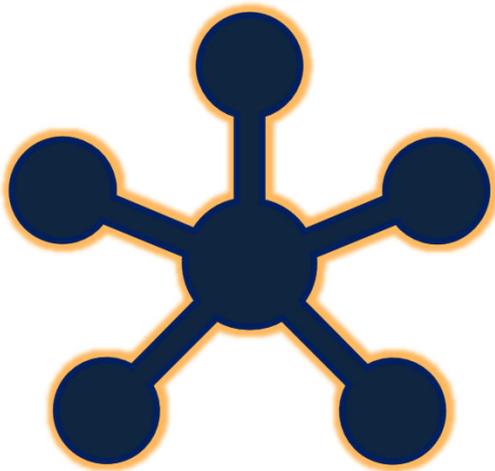

Thematic Groups

Impact, Artificial Intelligence, Ethics & Integrity, Project Management, Equality, Open Science, EODI/BESTPRAC and University Alliances

Building towards the professionalisation of Research Management

System level

- Building a European RM Profession
- National RM dialogue, policies and practices

Organisational level

- Building support for researchers and the organisation
- People working with systems

Individual level

- Training
- Certification
- Networking
- Career path

EARMA acting at the 3 levels of research management

System level

- EARMA Strategy
- ERA RM Action
- RM Roadmap
- RM Framework

Organisational level

- Creating a platform of member to share, discuss and improve
- EARMA Conference and Events

Individual level

- EARMA Academy**
- Training
 - Networking
 - Certification
 - Mentoring
 - Travel grants

How can
European R&I
actors thrive in a
fast-changing
world (of AI)?

How can European R&I actors thrive in a fast-changing world (of AI)?

Be competitive
and excellent

Conducting R&I
while dealing with
(new) challenges

3 ways for researchers
and organisations to
deal with challenges

1. People

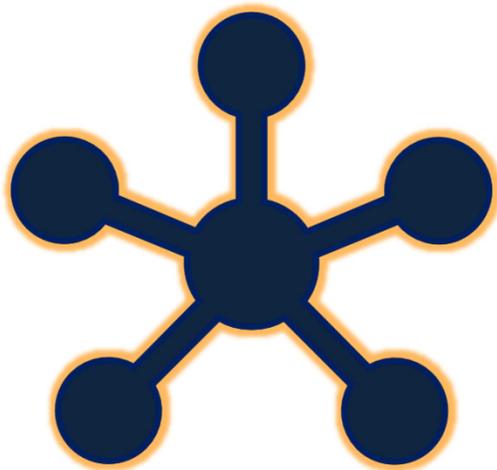

2. Systems (IT)

3. People working
with systems

The people: The research managers

System level

- Building a European RM Profession
- National RM dialogue, policies and practices

Organisational level

- Building support for researchers and the organisation
- People working with systems

Individual level

- Training
- Certification
- Networking
- Career

The Situation in 2022: A Fragmented Landscape

Fragmented

Developments Research Management in Europe

Co-Creating a European Research Management Profession and Academy

RM ROADMAP

RM FRAMEWORK

RM Definition

Research Managers enable, facilitate, and support the performance of research in all its applications. They hold generalist or specialised roles within the research and innovation ecosystem.

Research Managers are based in all types of research performing organizations, including public and private universities, research institutes, research funding organisations, medical institutions, NGOs, companies, public authorities, and so on.

Outcomes: The European Research Area Platform

RM Roadmap Ambassadors

List of Ambassadors who play a crucial role as community builders for research managers across Europe. By Horizon Europe project RM Roadmap.

Co-creation for research management community

Brings together research management communities to develop a roadmap for the future of research

Catalogue of professional development opportunities for research managers in Europe

Provides to the research management community a

CARDEA Academy

Offers open access to online training resources. Each module is delivered by experienced research

The European Competence Framework for Research Managers

EDI toolkit and fact sheet

EDI toolkit and fact sheet. By utilising these resources. Research Managers can better advocate

Publication of Success Stories

RESEARCH STRATEGY AND POLICY DEVELOPMENT 25

Strategy to unlock success in research institutes	26
Postdoc to PI: charting the Sorbonne University pathway	26
Highways and byways of Europe: strengthening research manager careers through CARDEA	27
From local needs to national impact – research administrators setting the agenda	27
Recognition of research managers in Antwerp University's career structure	28
A new oncology-driven nanomedicine research laboratory on the ERA map	28
Systemic professionalisation of research management in the Catalonia region	29
EU-LIFE: a decade of uniting Europe's life sciences for global excellence	29
Transforming a decentralised organisation into an effective research hub	30
Systemic change takes time: the power of patience in research reform	30
MSCA-PF Seal of Excellence: attracting research talents with an institutional incentive programme	31

RESEARCH SUPPORT DELIVERY 32

When strategy meets funding: collaborative success for scientific excellence and impact	33
Research development in a cross-institutional research centre: a model for success	33
Going digital: research services transformation	34
Research managers as agents of researchers' career development at institutional level	34
Impact helper: building the impact capacities of research managers and researchers	35
The 1, 2, 3 qualities of research success	35
Overcoming fragmentation: the research management community at Ca' Foscari University of Venice	36
Investing in support for EU-funded projects pays off big for Uppsala University	36

The Situation in 2025 in the EU/ERA: Activities and Findings

COGNITIVE ABILITIES/PERSONAL ATTRIBUTES

5. Strategic Planning

The ability to envision and execute a comprehensive research plan aligned with agreed goals and broader organisational and or national/international strategies. Develop a vision to turn ideas into action. Obtain and synthesize information to identify and explore trends, opportunities, threats (also based on intuition and creativity) to achieve a long-term goal and to thrive in a competitive, changing environment. Identify alternative paths to turn ideas into action, select the most appropriate approach and adjust where necessary.

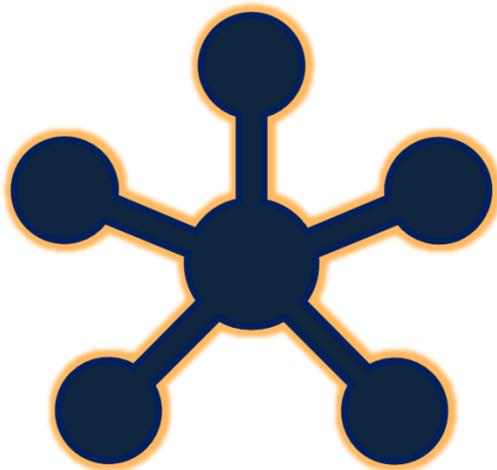

FOUNDATIONAL	INTERMEDIATE	ADVANCED	EXPERT
<ul style="list-style-type: none"> Understands the fundamental principles of strategic planning and its contribution to the success of a research project. Is able to conduct basic strategic planning analyses utilising tools such as SWOT analysis. Understands how research project objectives align with organisational strategy. Basic understanding of the strategic role of stakeholders both internal and external to the organisation. 	<ul style="list-style-type: none"> Is able to identify trends and threats within the research endeavour. Ensures that the research project is aligned to organisational strategy and goals. Effectively allocates approved resources to facilitate the strategy of the research. Implements strategies and procedure that increase research impact. 	<ul style="list-style-type: none"> Demonstrates the ability to formulate comprehensive and forward-thinking strategic initiatives. Utilises networks and expertise to connect in with national and or international research strategies. Exhibits proficiency in conducting thorough analysis, identifying key opportunities and challenges, and developing implementation plans that align with organisational goals. Connects with internal and external stakeholders to devise strategies that increase the impact of the research. 	<ul style="list-style-type: none"> Demonstrates the capacity to integrate insight, analyse global trends, and anticipate emerging challenges, resulting in the creation of agile and adaptive strategic plans. Recognised as a thought leader in the field, guiding organisations through complex strategic decisionmaking processes and consistently achieving positive outcomes. Develops and executes strategies that drive organisational success. Works closely with stakeholders both internal and external to the organisation to advance the long-term value and strategic impact of the research.

The RM Roadmap as a coordinated European response

1. System-wide dialogue
2. National assessment of research management
3. Strengthening national connections
4. Leveraging EU-level guidance
5. Stakeholder buy-in and awareness
6. Planning national interventions
7. Integrating key actors and framework

Leadership and change management: Building Research Management at the organisation level

RM Roadmap building an RSO Office

Good practices
identified in building
up and reinforcing
Research Support
Offices and Services

Offering High Quality Research Support

Advertising funding opportunities and services, providing individual support, strong continuum of departmental and central services, standardisation of RSS, joint ownership, celebrating successes, etc.

Solidifying Research Support

Providing proper onboarding for newcomers, regular meetings and team building, launching internal RM network, generating revenues for RSO

Facilitating Professional Development and Career Advancement

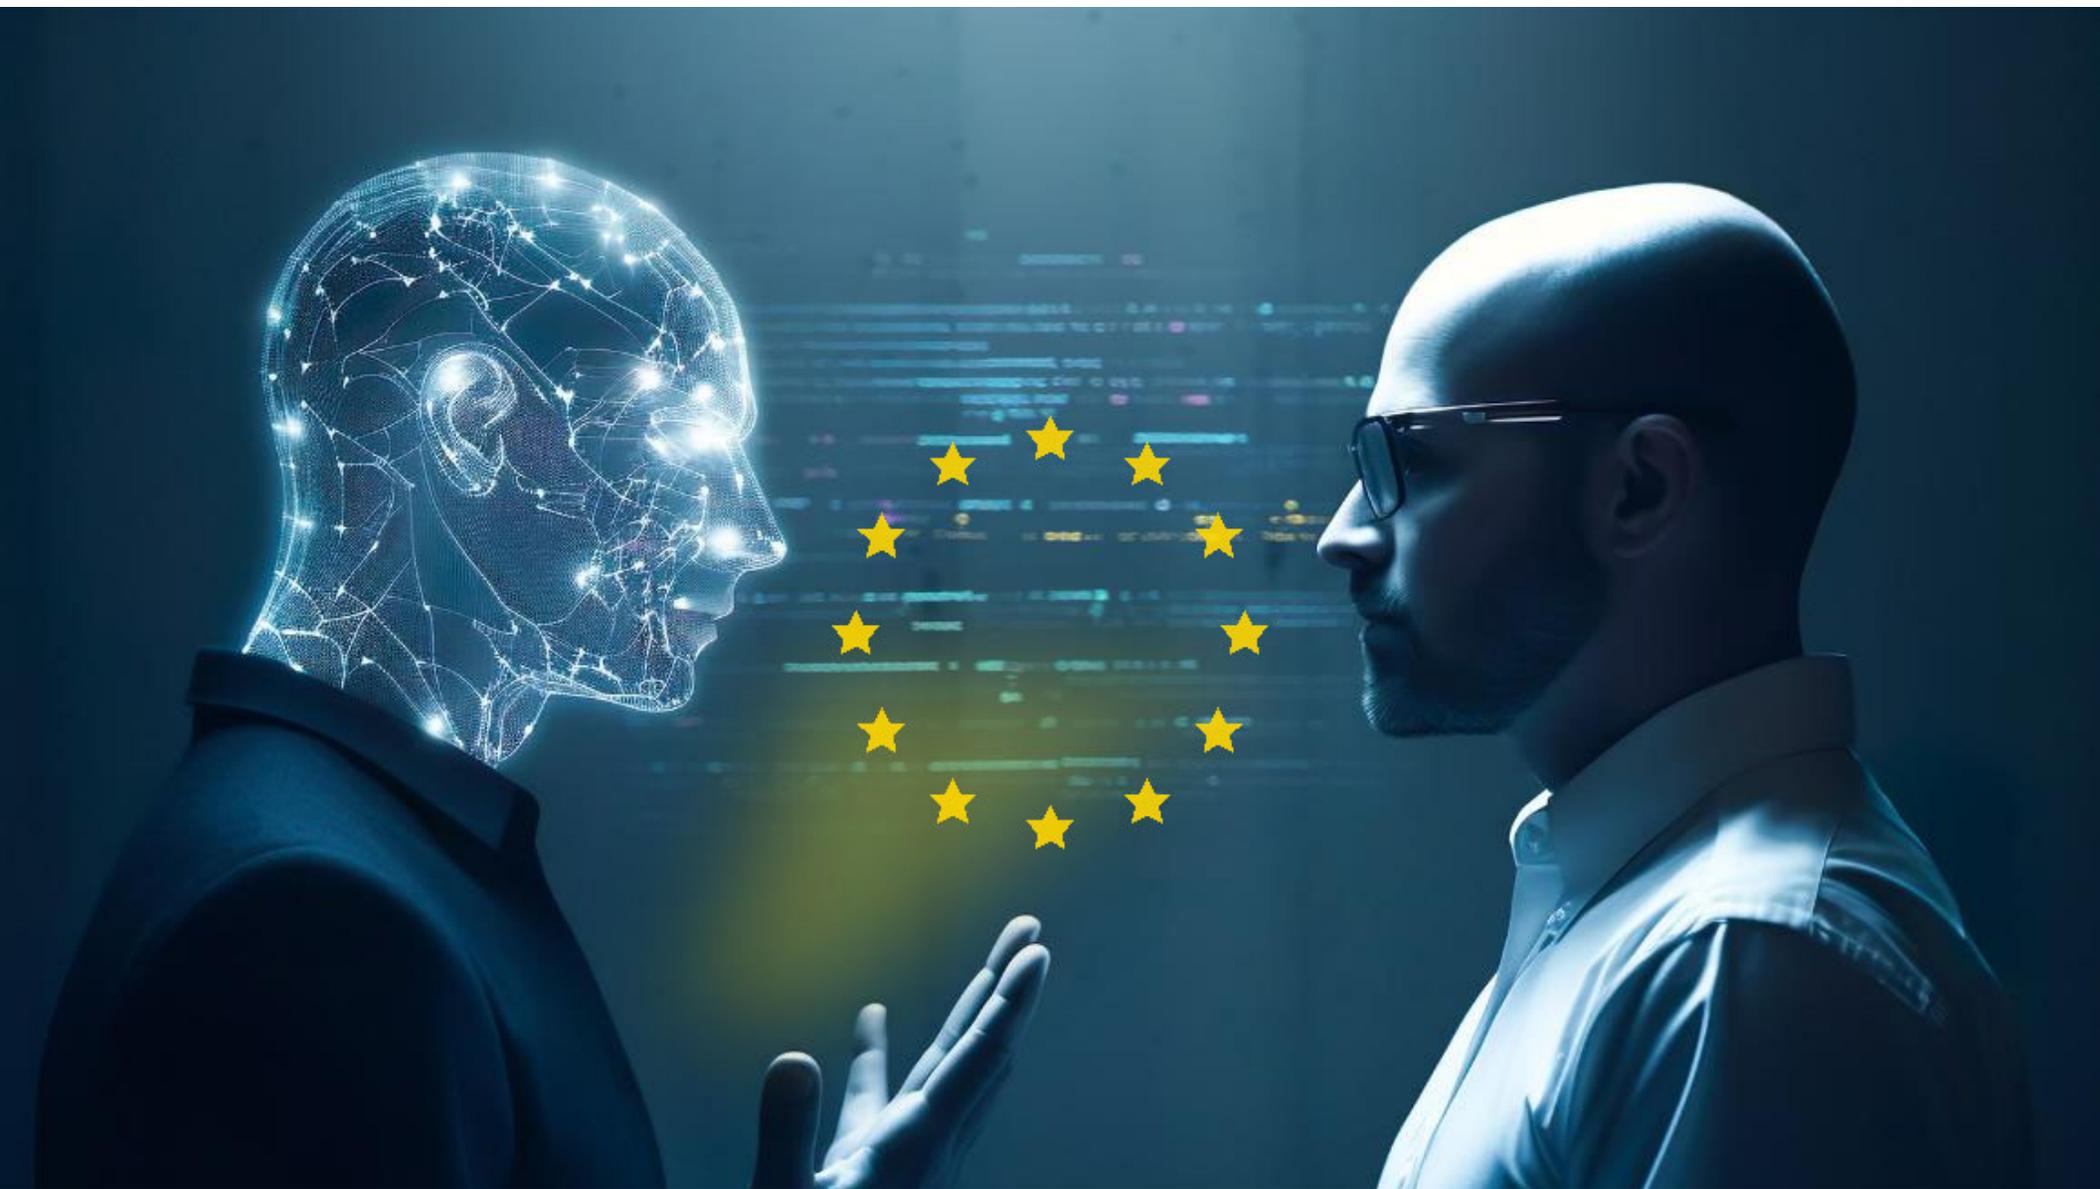

Specialisation within RSO, internal trainings, securing funding for external event participation, participation in peer-to-peer exchanges, professional associations, introducing career frames

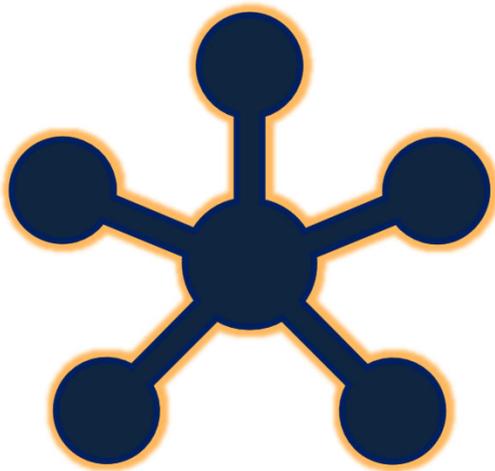

Increasing Recognition

Initiating changes at institutional and national levels, evaluating RSS, and demonstrating the value of RSS
